UX-UI Design

DURATION

03rd MONTHS

Modules

This 3-month intensive bootcamp at Creative Concept Academy is crafted to build future-ready UI/UX designers. Creative Concept's curriculum is industry-aligned, project-driven, and mentored by top UI/UX professionals. Focused on UI Design training in Rome, enabling students to master user research, wireframing, prototyping, and usability skills required for successful digital product careers.

Module#1
UX Research & Design Thinking
Learn how to conduct user research, personas, journey mapping, and problem-solving frameworks.

Module#2
Wireframing & Prototyping
Create low-fi and high-fi interactive prototypes using industry tools.

Module#3
User Interface Design
Design visually engaging and consistent interfaces with color systems, and components.

Module#4
Usability Testing & Portfolio
Test designs for usability, refine user flows, and build job-ready UI/UX case studies.

Why they

CHOOSE US

– Ravi Pande

– Gauri Bhatt

"Creative Concept helped me land my first UI/UX role! The practical training, real project work, and career guidance made all the difference. I went from zero to confident in just 3 months!"

"Creative Concept motivated us to pursue our dreams and we owe them for that. From user research to wireframing and prototyping, everything was taught perfectly. The mentors were always there to help us and guide us every step of the way. Just wonderful people."

– Ravindra Kulkarni

– Nithun Mandla

"I have a similar UI/UX knowledge before joining Creative Concept Academy. The course helped me a little more and I was able to get a job in a reputed company. The mentors were very supportive. The learning environment and faculty support made my journey smooth and helpful."

"The UI/UX Design course at Creative Concept Academy in Rome was fantastic! I learned by working on real-world projects in small groups, which helped me build a strong portfolio. The instructors were always ready to help, and the hands-on learning made everything click. Highly recommend it to anyone looking to break into UI/UX design!"
