

# Foodsteps

small steps for big bites

# ABOUT ABOUT

An organisation that provides respect to most essential thing of all our lives i.e food. Distribution of the leftovers is the motive for which we are working for. Distribution of food is rigorous, a fast paced program designed to reach the unfortunate sections of the society. Our drive focuses on the significance of the nourishment. We enlighten the unmet needs in the broader foodsystem and develop market-based, entrepreneurial ventures to solve them. The purpose of this chapter is to critically review the literature relating to food service, the position and attributes to gain the perception of the unfortunates. We hereby stand with all of them mutually to support, to enhance and to change this world with a new perception.

So here we take a oath in behalf of you all for the better nourishment, better services and no wastage of food AT ALL.

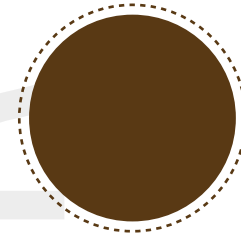

“You gotta nourish to flourish”

# ONBOARDING SCREEN

The main goal to design an onboarding screen is to make sure the user gets the idea behind the app.
